- NAP1: a novel locus causing autosomal dominant microcephaly.  
Microcephaly is a rare neurodevelopmental

---

disorder characterized by a reduction in head circumference, usually affecting cognitive development. The genetic etiology is heterogeneous, ranging from monogenic to complex multigenic inheritance. Recently, we identified the microcephaly in the guinea pig associated 1 (MCA1) gene as the major genetic determinant of autosomal recessive microcephaly in the guinea pig. Here, we describe a novel genetic locus, Nap1, as the molecular basis of autosomal dominant microcephaly in an Italian family with 9 affected individuals. The observed clinical phenotype consisted of variable degrees of intellectual disability, microcephaly, and small head circumference (from 30% to 82% of

---

individuals) with a variable degree of speech delay. Genomic DNA from each member of the family was screened for mutations in MCA1 and NAP1. Single nucleotide variation screening revealed only the known NAP1 mutation, c.2472T>C (p.F824S), in the proband. The family showed a tight linkage to the MCA1 locus on chromosome 2q22 and to the NAP1 locus on chromosome 9q33.1. To confirm the causality of the NAP1 mutation in this family, expression of the NAP1 protein in HEK293T cells was induced by transient transfection of pcDNA3.1-NAP1 using calcium phosphate. The expression of the NAP1 protein revealed by Western blot showed that the p.F824S mutation caused a substitution of phenylalanine by serine

---

at amino acid 824. This study identifies a novel gene, NAP1, as a possible candidate for dominantly inherited microcephaly.

Morgan Stream Switcher is a DirectShow filter that handles more than two audio streams and adds itself to the Windows Media Player that ranges from version 6 through 9. More than this, Morgan Stream Switcher lets you play with the audio streams at a later time. With Morgan Stream Switcher you can add, delete, or swap the audio streams on the fly when you want to watch a DVD or a movie that is not in your language and you want to listen to a different audio stream. You can even turn on or off the directors commentaries, the main audio and the audio that is coming from the center and the side of the

---

screen for a movie. After you install Morgan Stream Switcher, you simply go to the Media Player menu and choose the option "Morgan Stream Switcher" to be able to switch the audio stream of a movie in a few clicks. Morgan Stream Switcher allows you to find out which streams are saved and that you can access later. Q: Conversion of DateTime to

---

YYYYMMDD format In my view, I have a dropdown list where a user can choose between dates that are in DateTime format. I have a controller function that is used to convert this DateTime format to YYYYMMDD format. This is what I am doing: `string dateString = TempCon.DateTime; DateTime toDateTime = DateTime.Parse(dateString); string format = toDateTime.ToString("yyyyMMdd");` My problem is that after this format is applied, when I do the ToString, it returns the following: 12/12/12 11:44:12 PM I want to return the format in the following way: 20121212 What am I doing wrong? A: Try using `DateTime.ToString("yyyyMMdd")`
